

# ROTATOR

Why  
LOGITRANS?

logitrans.com

## High safety means less sickness days

One of the benefits of the Rotator is the ergonomic design, which reduces sickness days and gives happier employees.

## Higher efficiency and performance

The unique designed and flexible construction of the Rotator will increase the efficiency in production and stock.

One of the main tasks can be emptying, or it can be used as an ergonomic work place.

## Durability, lifetime

- The Rotator has a long operating life.
- With its special construction with use of quality materials, it lowers maintenance costs.
- All will be tested before shipment.

## Flexibility

- Available as semi electric, fully electric as well as with straddle legs.
- Available in a stainless version.
- Can handle different types of boxes etc.
- Tailor-made solutions.
