

Crane arm - lifting and carrying with a hook

High flexibility and efficiency - the crane arm makes it easy to lift and carry heavy objects, such as machine tools, plastics moulds and components.

The crane arm with quick shift system can readily be fitted on all Logiflex models with an adjustable carriage. Furthermore the crane arm can easily be exchanged with one of the many Logitrans fork options and optional extras.

A wide range of optional extras ensures an optimum utilisation of the Logiflex - the same Logiflex can be fitted with spear, platform, drum turner and reel rotator.

High quality is ensured through an extended test programme and in cooperation with experts in Health and Safety.

Technical Specifications

The Logitrans crane arm is designed to handle machine tools, moulds and components.

The crane arm has a chain with a hook. The crane arm has a quick shift system, and can be quickly and easily fitted on all Logiflex models with adjustable carriage.

The length of the chain is adjustable, and can be easily and quickly adjusted without using any tools.
