

Features

The perfect tool for handling hospital beds

Transport, lift & turn beds with one device

High flexibility: adjustable forks & back rests accommodate multiple bed models

Large 500kg lift & turn capacity

Tilting forks give easy access to bed underside for maintenance, inspections & cleaning

Frame clamps ensure a secure, firm hold

Made in Denmark with 2 year warranty

Bed Lifters

Logitrans LTS Custom

1. Forks

Adjustable width via turning handle

2. Load Capacity

500kg, lifts most common bed models

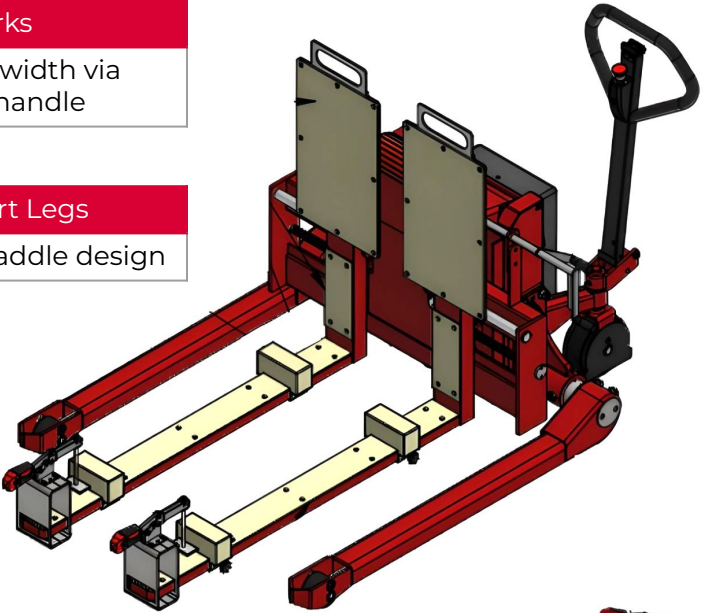

3. Support Legs

Adjustable, straddle design

4. Safety

Clamps lock the bed frame firmly in position

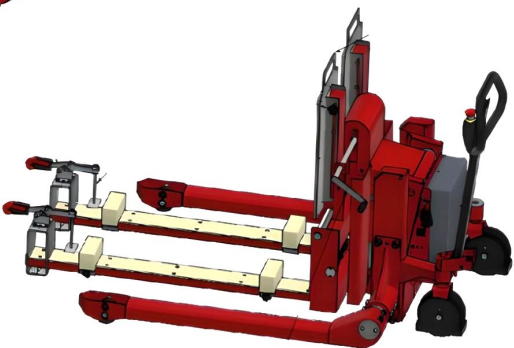

Foot brake secures the lifter to the floor

5. Bed Types

Removable support blocks prevent damage to electrical components on lower profile beds

Clamp feet are adjustable for different bed frame sizes
