

Wrap-over forks, bar forks and chisel forks

High flexibility and efficiency - the different Logitrans fork styles can easily carry and lift different pallets.

The forks can readily be fitted on all Logiflex models with an adjustable carriage. The forks can easily be exchanged with one of the many quick shift options, offered by Logitrans.

A wide range of optional extras ensures optimum utilisation of the Logiflex - the same Logiflex can be fitted with the quick shift products from Logitrans, such as boom, crane arm, platform, reel spindle, reel clamp and drum turner.

High quality is ensured through an extended test programme and in cooperation with experts in Health and Safety.

Technical Specifications

Wrap-over forks: Light forks for ordinary pallet handling.

Bar forks: Narrow forks for entry widths, narrower than those on a Euro-pallet.

Chisel forks: Thin forks for low heights under the load to be raised.

The forks can be fitted on all Logiflex models with and without straddle legs.

With the quick shift system, it is easy and quick to carry through exchange between forks and optional extras.

Quick shift options: Crane arm, boom, platform, reel spindle, reel clamp and drum turner.

Adjustable fork carriage for Logiflex stackers without straddle legs:

Adjustable fork carriage for Logiflex stackers with straddle legs:
